

SEMIRAMIS CASAS VELAZQUEZ

Green Growth Strategy VS Natural Disaster Relief

Semiramis Casas, a Food Chemist who has dedicated most part of her life to Environmental and Food areas; teaching and researching at the University for more than 15 years. She has two masters degrees in these areas, but what she loves is nature and since 20 years ago she combines being a coffee grower with her profession.

In 2000 she established her own consultant firm and since then she has been involved in different projects with women and farmers. Her journey through these fields had led her to an exciting work, which includes environmental, immigration, health and nutrition issues, at the south part of Mexico.

She joined BPW Mexico on 1999, where she is now serving as Federation President. Since she knew and joined BPW she has been working very hard linking productive women projects to support them.
